

FACT SHEET

Network Designs, Inc.

Networked Digital Video Management Systems

Network Designs, Inc., is an information technology (IT) solutions provider that integrates new technologies into proven, enterprise-wide solutions. Network Designs provides networked video surveillance, data and physical security, and computer forensics and training in support of Force Protection Initiatives and homeland security. An agile and responsive company with offices in the Washington DC Metro Area and in Asia, Network Designs is a small, women-owned business holding GSA Schedule GS-35F-4707H and COMMITS contract vehicles. For more information, contact Nancy Pierce, Director of Business Development, at 703.268.0030 or visit www.netdes.com.

Networking System Analysis and Design

- Wireless Networking Solutions: Point-to-point or multi-point solutions; latest 802.11 standard
- Network Analysis and Implementation: Router and switch sizing and design; integration of multi-platform systems. *Cisco Premier Certified Partner*
- Cable Plant Survey, Analysis, Certification: Ethernet, co-axial, and fiber
- Networked Video Streaming Analysis and Design: Pan-tilt-zoom; infrared; and thermal camera solutions
- Power Source Solutions: Solar power or generator options
- System Analysis & Security Assessment: VPN and firewall analysis and design; RADIUS and authentication systems; wireless and wired security measures. *Symantec Certified Security Provider*

Networking System Integration

- Digital Video Management System Hardware and Software Installation. *Authorized Loronix Integrator*
- Cable Plant Installation
- Wireless Networking Product Installation
- Network Camera Installation

Networking System Support

- On- and Off-Site Help Desk
- On-Call Troubleshooting and Repair
- Break and Fix Support
- Seat Management

Daylight, Thermal, Infrared Cameras: CANTRONIC

Cantronic Systems Inc. is a worldwide leader in the manufacture and design of thermal and active infrared CCTV cameras. Cantronic solutions integrate advanced technologies: integrated opto-electronics, multi-media, data management, network communication, and monitoring.

- CSI-IR Infrared Illuminator 12m (40ft) to 200m (660ft)
- CIRP600m System Data 400W
- CIRP800m System Data 450W
- CSI-IR100m30 Infrared Illuminator 100m (328ft)
- CSI-IR12m Infrared Illuminator 100m (328ft)
- CSI-IR15m30 Infrared Illuminator 15m (49ft)
- CSI-IR15m60 Infrared Illuminator 15m (49ft)
- CSI-IR30m30 Infrared Illuminator 30m (98ft)
- CSI-IR30m60 Infrared Illuminator 30m (98ft)
- CSI-IR50m30 Infrared Illuminator 50m (164ft)
- CSI-IR50m60 Infrared Illuminator 50m (164ft)

Digital Video Management System Expertise: LORONIX

Loronix CCTVware software provides effective, superior management and a proactive approach to networked digital video systems. Loronix CCTVware offers up to 75 days of storage on hard disk with tape library options.

Other features include—

- Multi-Camera View
- Remote Viewing
- Multi-Video Output
- Alarm Details
- Instant Alarm Review
- Multiple Alarm Review
- PTZ Camera Control
- Monitor Control
- Multi-Video Outputs
